APR 9 1990

Mr. Arthur S. Kelly, Jr.
Senior Landsperson
Total Minerals Corporation
333 Clay Street, Suite #4000
Houston, Texas 77002

Dear Mr. Kelly:

We have received a copy of the Utah Power & Light (UP&L) Company letter dated March 14, 1990 written to Total Minerals Corporation.

We understand that the mining claims in question are the White Canyon (UNCA 127436) and Saddle (UNCA 127461) located in the Fry Point area of San Juan County, Utah. In 1986, Minatome Corporation filed a Mining Notice for construction of a mine entrance site and road improvement work on these claims. Subsequent Notices were filed by Minatome and Total Minerals Corp. for similar work during the years 1986, 1987, and 1988.

We have visited the area and agree with UP&L's determination that the site needs further reclamation. Under past notices only disturbed areas not needed for future use were required to be reclaimed at the end of each operation. Since Total Minerals Corporation intends to abandon the site we will require reclamation of a more permanent nature.

We feel that a meeting onsite between a representative(s) of Total Minerals Corporation and the Bureau of Land Management to discuss closing the mine entrance and reclaiming the site is warranted. Please contact Ted McDougall at (801) 587-2141 to schedule the onsite at a time which is mutually convenient.

Sincerely yours,
S/ EDWARD R. SCHERICK
